

Secure & Sustainable E-Waste Removal for Businesses

Discover how we make responsible electronics disposal simple, scalable, and secure for your organization.

The Hidden Risks of Outdated Tech

The challenge of managing obsolete electronics goes beyond clutter.

Data Security Threats

Improperly disposed of hard drives and devices are a significant risk for data breaches.

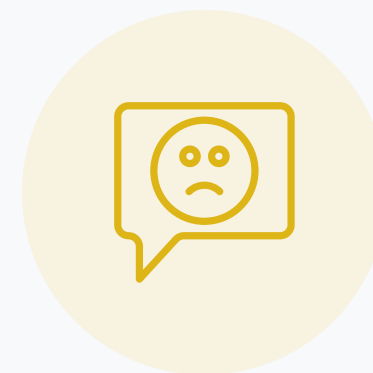

Environmental Compliance

Learning the complex local and federal regulations for e-waste disposal is a constant challenge.

Logistical Hurdles

Old electronics are heavy, bulky, and take up valuable office or storage space, disrupting operations.

Brand Reputation

Today's customers demand sustainability. Sending e-waste to landfills can damage your brand and violate corporate social responsibility goals.

The Grunber Solution – Built for E-Waste

We're transforming the industry with a nationwide, on-demand service built on three pillars to address every challenge of e-waste management.

Tech-Driven Platform

For fast, transparent booking.

Vetted Driver Network

For flexible, professional service.

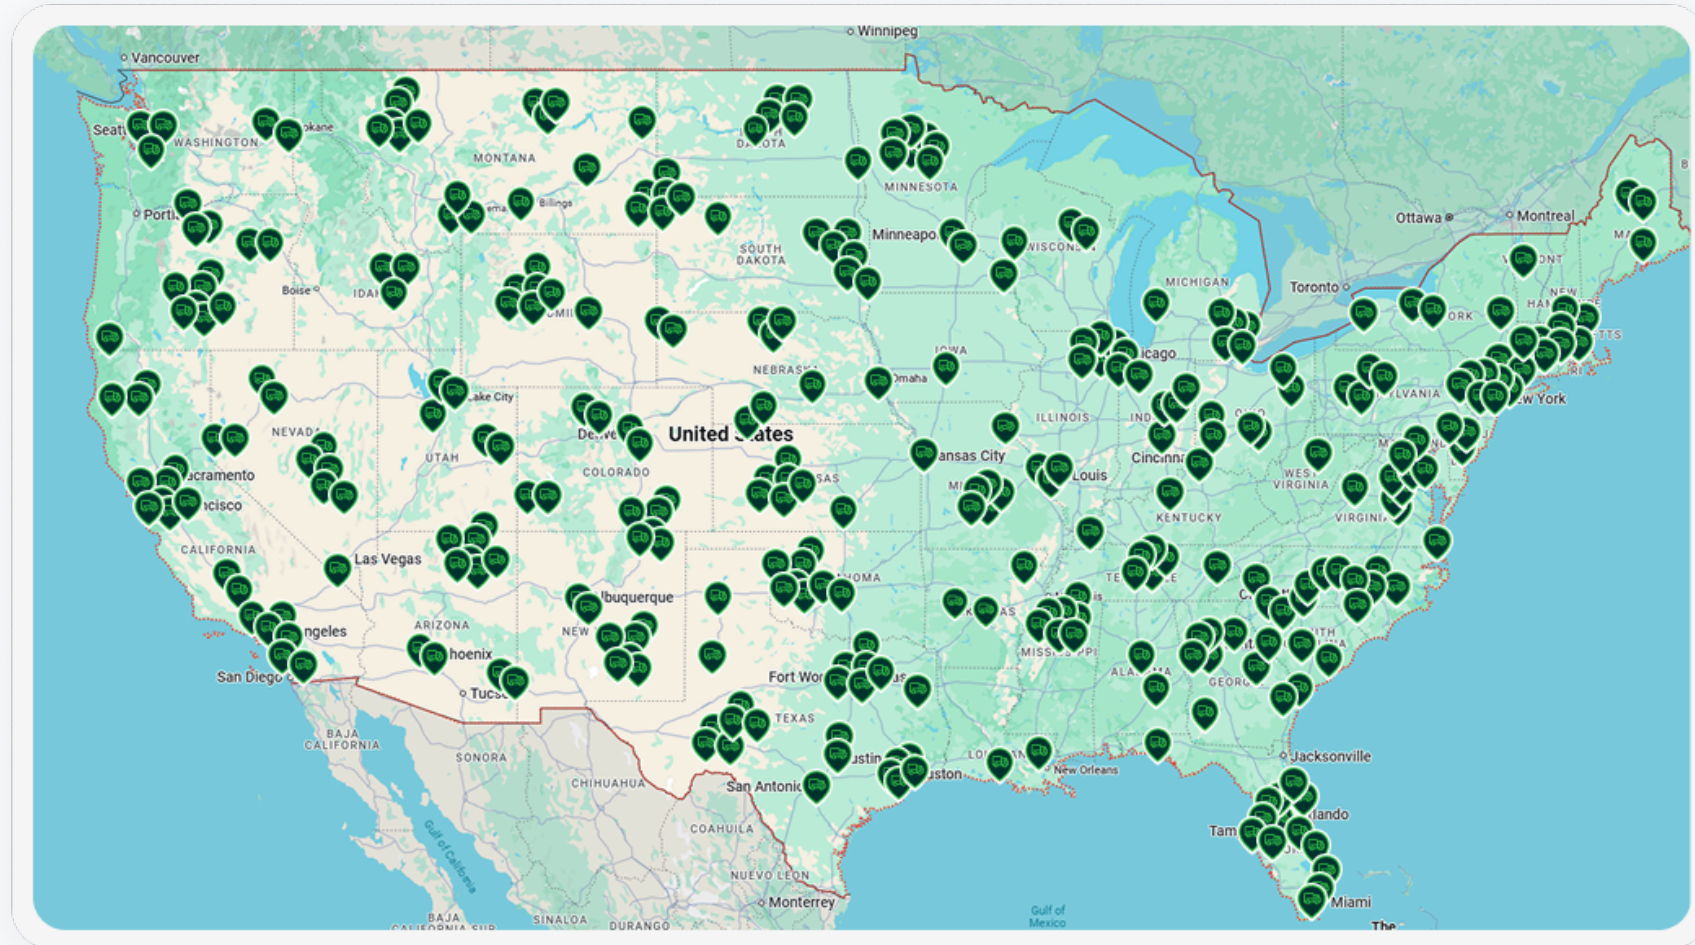

Responsible Recycling Focus

For compliant, sustainable disposal.

Nationwide Coverage, Local Execution With 900+ haulers

Grunber's network spans across the United States, providing consistent and reliable service from **coast to coast**.

Whether you have one location or hundreds, you get a single, streamlined solution for all your waste removal needs, ensuring **quality service no matter where your business operates**.

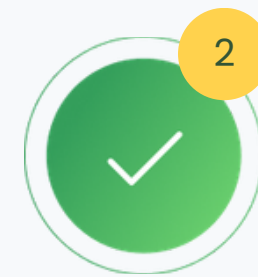

A Smarter Way to Manage Ongoing E-Waste

In addition to our large-scale cleanouts, we offer an innovative solution for your day-to-day e-waste. Keep your workspace clutter-free without disrupting your team.

Set Up Your E-Waste Bin

Designate a bin on your site specifically for electronic waste (E-Waste), and then request your exclusive QR Code sticker from us.

Request Pickup When Full

When your E-Waste bin is full, simply scan the QR code on your sticker to submit a pickup request directly to our team.

We Handle the Rest

A local hauler is dispatched to empty your bin, ensuring all items are routed to responsible recycling streams.

What We Handle

Our teams can remove almost any non-hazardous electronic equipment, supporting everything from routine upgrades to full office decommissioning.

- **Computers & Servers**
- **Office Equipment (Printers, Scanners)**
- **Monitors & Displays**
- **Peripherals & Mobile Devices**
- **Cables and IT Accessories**

(Please note: We do not handle hazardous materials.)
